NEW-ROCHELLE.

Society people of New-Rochelle, Larchmont and Pelham Manor were out in large numbers on Monday night to attend the opening of the Kirmess and bazaar in aid of the New-Rochelle Hospital, which is being held this week in Metropolitan Hall. Music was furnished by an Hungarian orchestra and the hall and booths were decorated with palms, plants, bunting and colored lights. The programme consisted of a number of pretty dances given by society people in uniform, Spanish and gypsy dances, a competition with a game of hearts, a hearty dance for the younger set, who wore Scotch costumes. To-morrow, Thursday, Friday and Saturday afternoons there will be matinees and old folks will take their turn in the dancing.

The matter was referred to the Committee of Public Works, and a committee of men from M. F. Murphy's Fire Commission was held over.

Doctrine

Our civilization is in many respects becoming too luxuriously Roman. It might well be more luxuriously Spartan.

Wool, next the skin, energizes, weakens, often kills.

Deimel Linen-Mesh Underwear permits a man's skin to do one of the duties nature intended it to perform,—help protect him.

Many shoe-sellers are nowadays wearing a broad grin—prices going up; but, unfortunately raw materials are also going up, which explains why the makers are losing their grin.

Several large dealers have, in consequence, advanced their shoe prices from 50 cents to a dollar a pair.

Our prices are the same as always.

Every good kind of shoe man or boy wears—high and low, lace, button and Blucher; waterproof, bunion, golf, skating and riding.

RAILROAD INTERESTS.

PRESIDENT ROSSITER OF THE RAPID TRANSIT ROAD HAS VISITORS.

President Rossiter yesterday afternoon took a number of New-York and Chicago stockholders of the Rapid Transit Company over the system in the private car Columbia. The party spent about four and one-half hours on their trip, and finally left at the Manhattan end of the Bridge. President Rossiter said that the stockholders came as private individuals, and he declined to give their names. He said that the stockholders would send out all available information with reference to the trip at his office in Manhattan.

It was rumored that the stockholders were not friendly to the present management, but President Rossiter said that the energy and enthusiasm of the present management when this was suggested to him was evident. When this was suggested to President Rossiter last night he smiled, and said that quite evidently he and his associates were apparently highly satisfied with the condition of the rapid transit, and profoundly impressed with the rapid development of Brooklyn.
